

Flavouro Project - Full Code Explanation

AI Mock Interview Script

Section 1: Custom AI Mock Interview Script (Flavouro)

Duration: 30 minutes

Focus: Behavioral + Project + Technical

Introduction

Q: Tell me about yourself.

Project-Based Questions

Q1: Can you explain the architecture of your Flavouro project?

Q2: Why did you choose Redux Toolkit over useState or Context?

Q3: How does your cart system work under the hood?

Q4: How did you ensure only valid users access the success page?

Q5: What would you do differently if rebuilding Flavouro?

Technical Questions

Q1: What is the difference between controlled and uncontrolled components in React?

Q2: How does Tailwind CSS differ from traditional CSS frameworks?

Q3: How does React rendering work when Redux state changes?

Q4: What are middleware in Redux?

Behavioral Questions

Q1: Tell me about a time you faced a bug that took hours to fix.

Q2: How do you stay up to date with frontend tools?

Q3: What role did you play in team-based projects?

AI Feedback Handling Tips

Section 2: How to Handle AI Interview Feedback Prompts

1. "Too many filler words":

Pause instead of saying "uhh" or "like".

2. "Lacked depth":

Always explain Why + How.

3. "Low confidence detected":

Practice in front of a mirror. Use short, clear statements.

4. "No technical detail":

Mention tools by name: React Router, Redux, Tailwind.

5. "Too short":

Use the STAR format (Situation Task Action Result).

1-Week Interview Prep Schedule

Flavouro Project - Full Code Explanation

Section 3: 1-Week SDE Interview Prep Plan

Day 1 Tell Me About Yourself + Project

Practice self-intro and Flavouro walkthrough

Record and review your speech

Day 2 React + Redux Deep Dive

Hooks, lifecycle, Redux slices

Solve 2 LeetCode problems

Day 3 Tailwind, UI, Routing

Build components in Tailwind

Explain ProtectedRoute.jsx

Day 4 Coding + DSA

Solve 2 easy + 1 medium DSA problems

Day 5 System Design (Lite)

Explain Flavouro architecture

State management and scalability

Day 6 Full Mock Interview Day

1 Pramp or peer mock + 1 AI-based mock

Day 7 Final Review + Resume Polish

Reflect, refine, update GitHub & resume
